Mac-P.C. commercials based on Furno-IT relations

Dick is leaving! Our world is doomed.

Keegan cools him down

Bacon Globular, your highness.

Short deadlines, unprojected maps and haloed text have caused this region to recede since the early 1970's

Original hair boundary

Furno V. Floyd
Legendary cartographer meets legendary rockers Pink Floyd. Days later, the band retitles famous album "The Far Side of the Moon," issues apology to fans, NASA and Furno.

Outer Rim
Note to cartos: Please use great circle next time!

See of Tranquility

Zone Of Clear Perspective

Coworkers with computer problems

Editors

Cartos

Zone of competition
Area hotly disputed since 1978

IT

Cranium Reserve
This region has been set aside for extremely rare and threatened projections and algorithms

A z i m u t h a l P l a i n

Canal of Cognizance
Closed to Washington Post employees on 1/1/09

Deforested after 1996

What is the antipode to Dick's earlobe?

Keegan's recipe for "The Furno"

3 parts cream (you can't put in too much)
Two (2) little packets of sugar (removed the paper packets)
8 parts coffee
THE FURNO COFFEE
Then stir gently and deliver once in the morning at 10 a.m. and once in the afternoon at 4:45 p.m.

Dicktopia
Where all the people—and all the charts—are properly proportioned to each other. . .

Outtawhacksville
Where people and charts grow without regard to how others are growing! Gasp!

Printed Newspapers

The Washington Post

ISLAND OF MISFIT TECHNOLGY

Rubylith

Pen Plotters

Lines Drawn Strait

Great Neck
Note to cartos: Furno wants halos larger

Boundary arbitrator

Remember when line tape literally held the world together?

Many, many Macs

Bestine, worstine

Ouch!

Defacto maps discarded — only Dejure maps allowed, thanks to Dick!

Dick's world... on a dime!
(dime not to scale)

*Who forgot to put the *&$@! scale on this thing!*

Move over, Oscar. Dick sets a new standard when he wins the first What on Earth prize.

Dick finds soaking in saltwater soothing for the sole.

. . . Mapping the Earth for the Post was not always a breeze . . .

blast!
a
often
. . . but
. . . a breeze . . .

r_major = r_maj; r_minor = r_min; false_northing = false_north; false_easting = false_east; temp = r_minor / r_major; es = 1.0 - SQUARE(temp); e = Math.sqrt(es); center_lon = c_lon; center_lat = c_lat; sincos(lat1, sin_po, cos_po); con = sin_po.val; ms1 = msfnz(e,sin_po,cos_po); ts1 = tsfnz(e,lat1,sin_po.val); sincos(lat2,sin_po.val); ms2 = msfnz(e,sin_po,cos_po); ts2 = tsfnz(e,lat2,sin_po.val); if (Math.abs(lat1 - lat2) > EPSLN){ ns = Math.log(ms1/ms2) / Math.log(ts1/ts2); } else { ns = con; } f0 = ms1 / (ns * Math.pow(ts1,ns)); rh = r_major * f0 * Math.pow(ts0,ns); con = Math.abs(Math.abs(lat) - HALF_PI) if(con > EPSLN { sinphi = Math.
