Most people accept the validity of NoPa, for instance, even though it could easily be called Western Addition. To answer this question, I turned to the Arbiter of Truth, Wikipedia.

The **"Neighborhoods in San Francisco, California"** entry contains no fewer than 107 names, starting with Alamo Square and ending with Westwood Park. Neighborhood names that I have never heard of include Crocker-Amazon, Islaid Creek and Lone Mountain. But the one that immediately set off bullshit signals was the dubiously named **Safeway Heights**. As in the supermarket, Safeway.

Wikipedia defines the neighborhood of Safeway Heights as "a subset of a number of neighborhoods , including Mission Dolores, Duboce Triangle, and other unnamed portions of San Francisco, centered on the "Castro" Safeway supermarket..." Do we really need a neighborhood named after a big box supermarket chain? Is this some kind of bizarre marketing scheme? Has anyone ever actually used, or heard this neighborhood name used? --*Andy Wright*

SF Weekly, Apr 30, 2008

New Orleans area neighborhoods, according to you
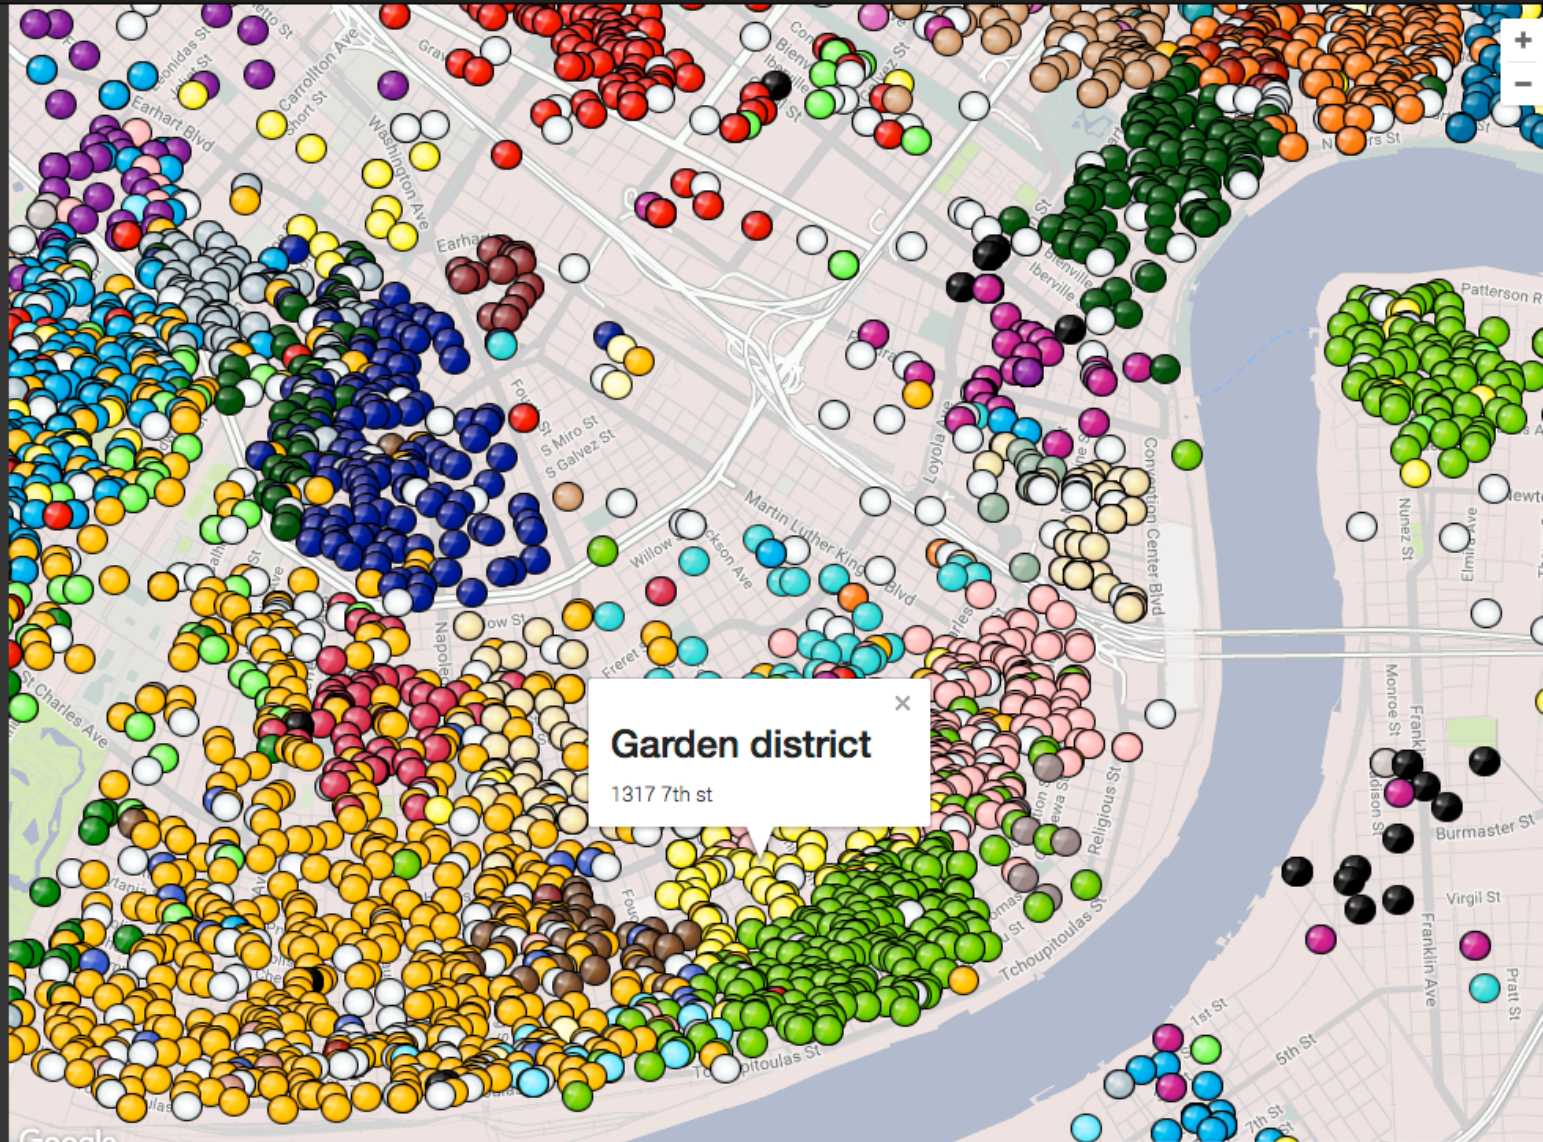

What do you call your neighborhood?

What is your address? ?

Street Address

City or Town

Be cool. Like everything else in New Orleans, it may take a moment. Refresh your browser for your dot to appear.
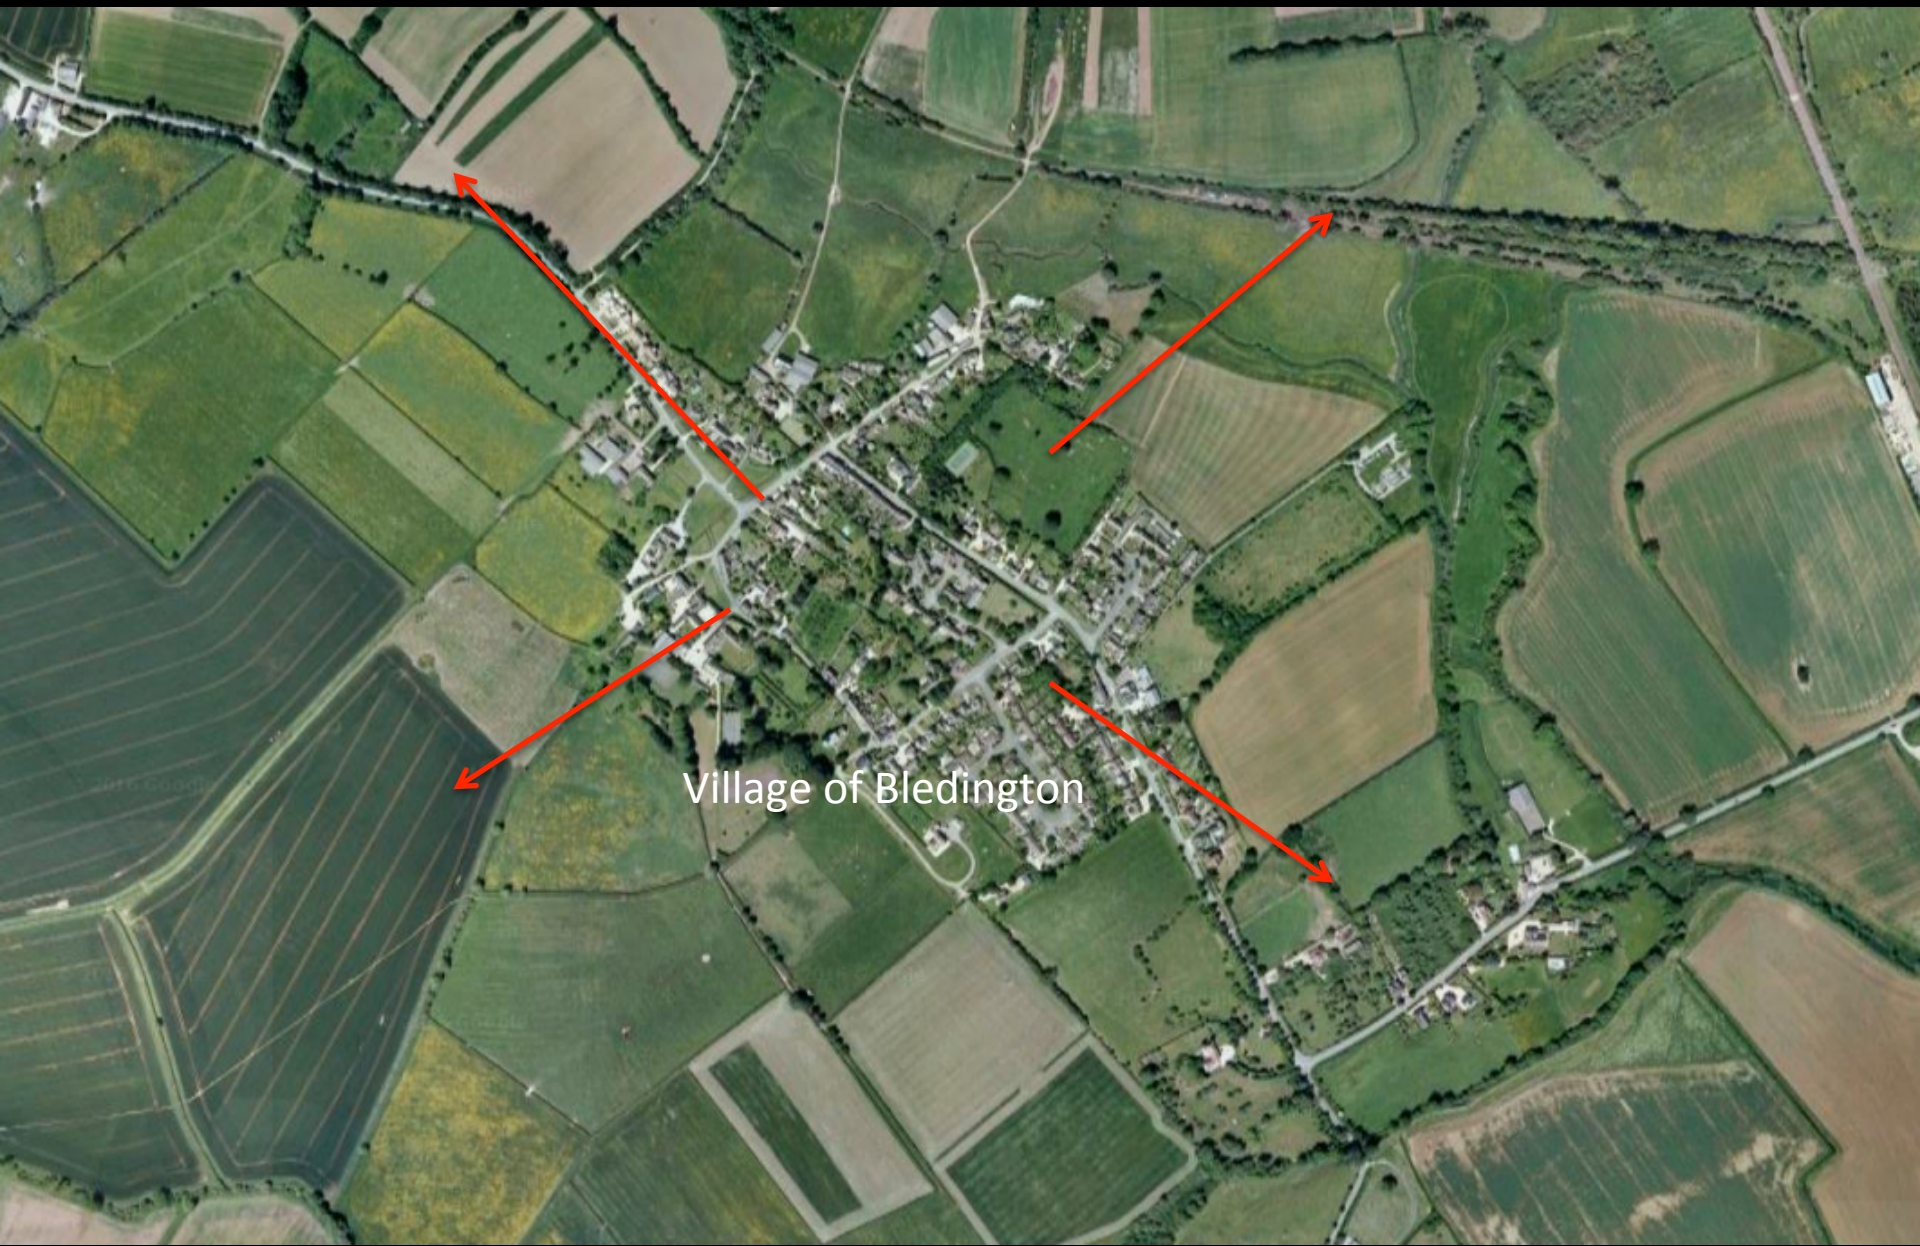

ADD YOUR NEIGHBORHOOD!

A couple ideas

There are two basic kinds of populated place geography: radial and bounded.

Every named populated place has at least the potential to have both kinds of geography.
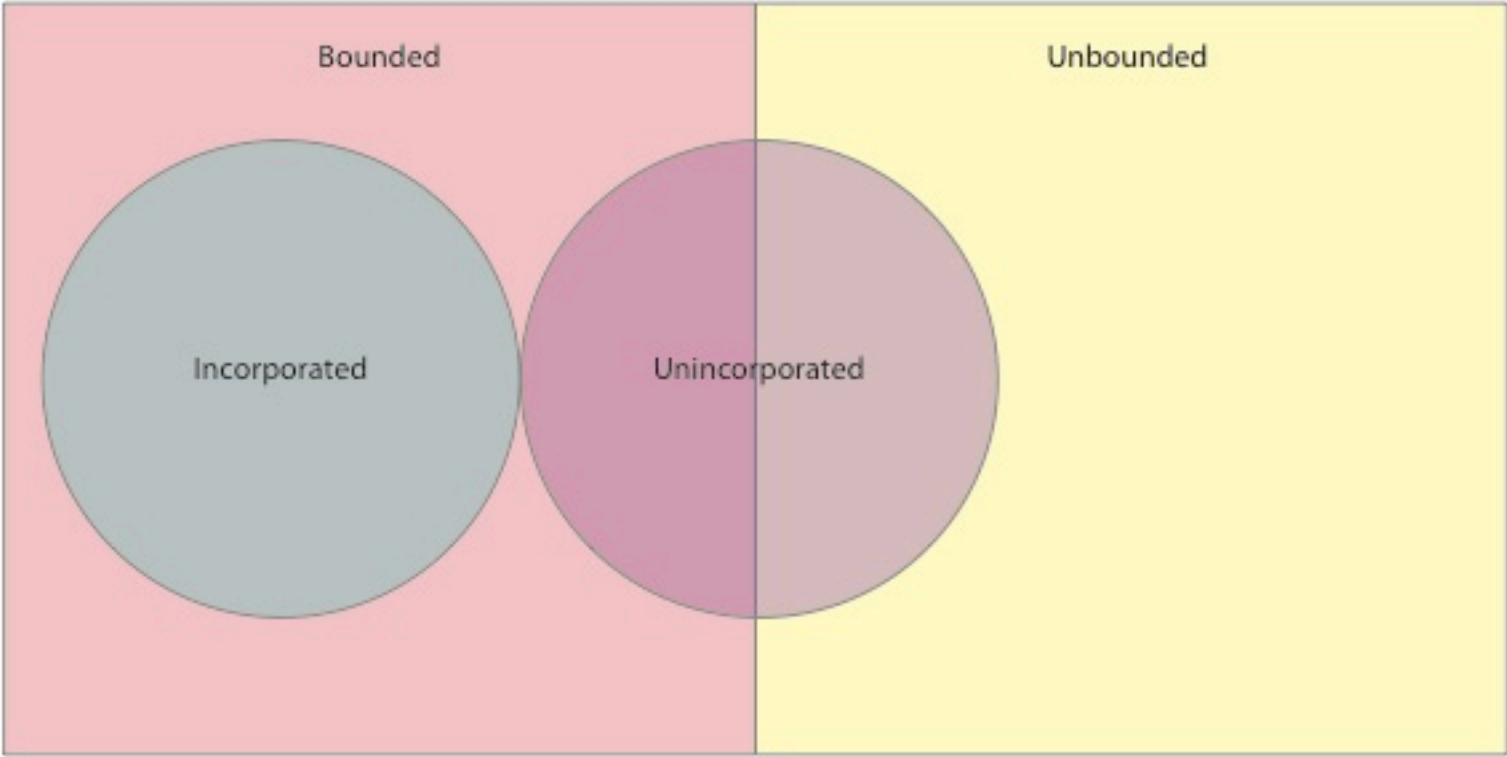

Village of Bledington
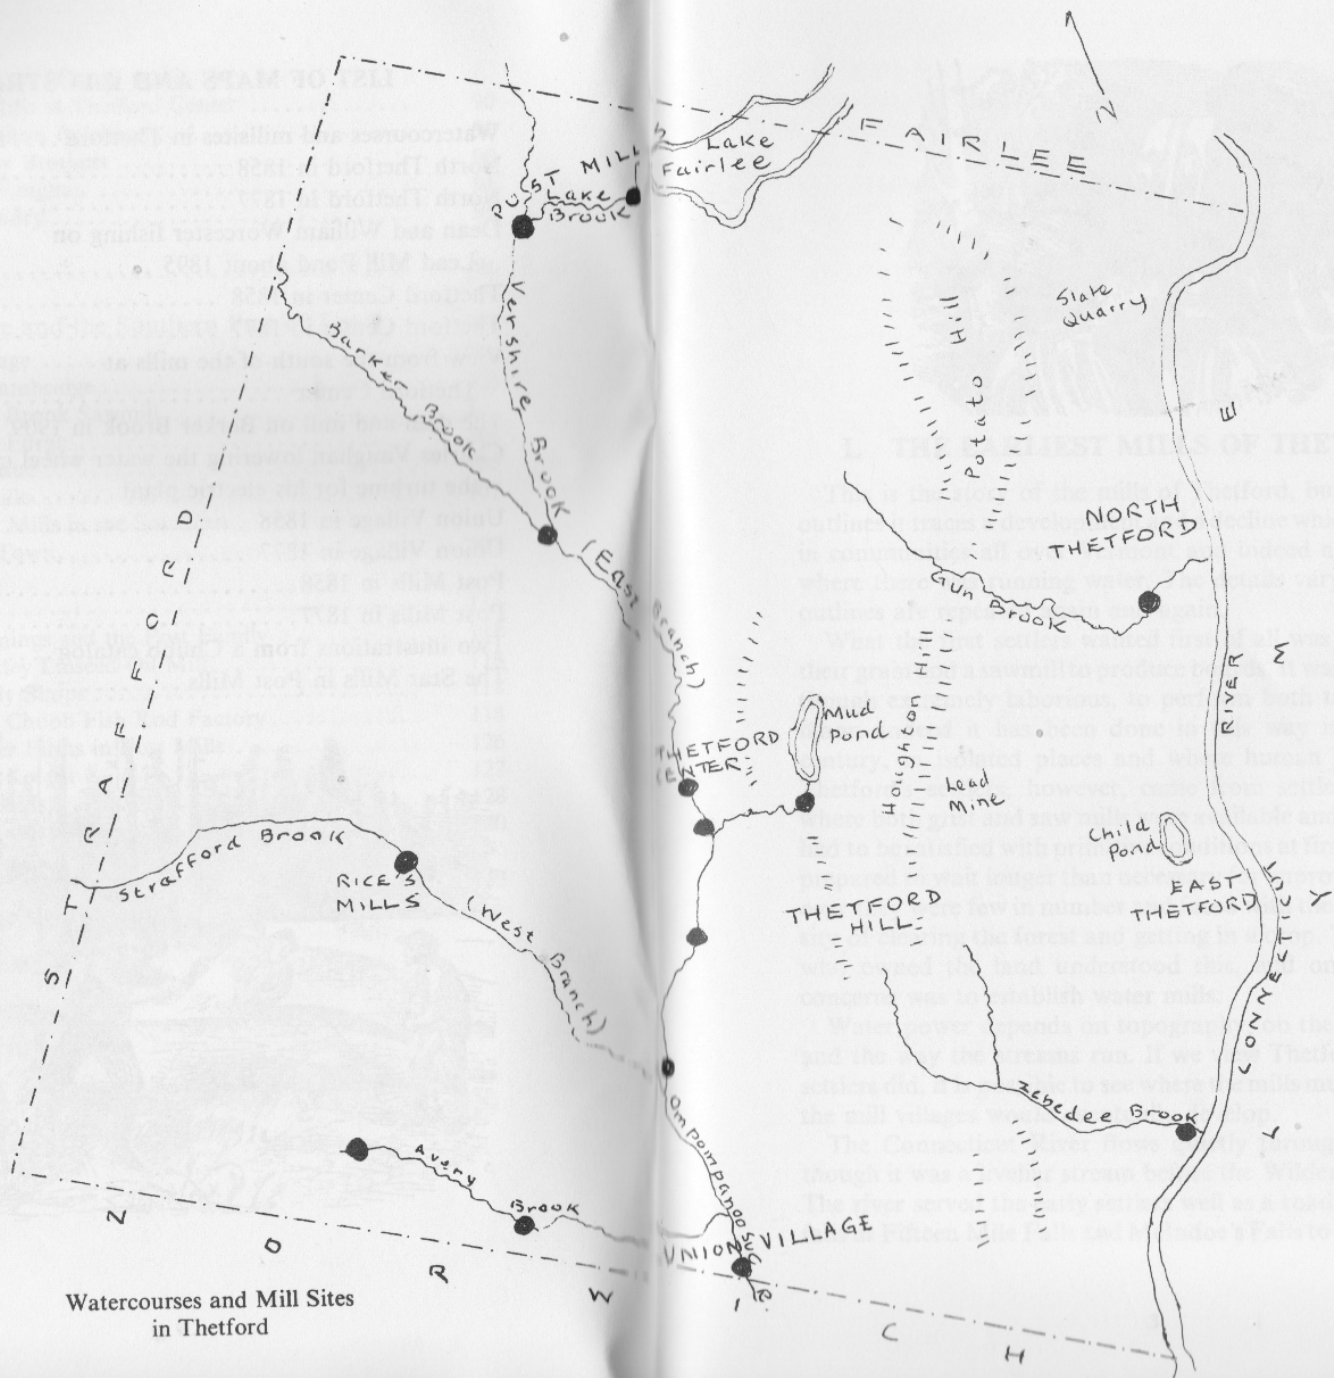

Parish of Bledington

Village of Bledington

Neighborhoods are not subsets or
subdivisions of cities,
but instead are unincorporated places.
